

J90 Taking brilliance to a new level

201408 – JURA reserves the right to modify specifications without notice. spreadvertising

Technical overview

JURA standards

Variable brewing unit, from 5 g to 16 g	■
Intelligent Pre-Brew Aroma System (I.P.B.A.S.®)	■
Additional preground coffee powder	■
Hot water function	■
Cappuccino frother	■
Height-adjustable coffee spout	■
Energy Save Mode (E.S.M.®)	■
Multi-level Aroma+ grinder	■
CLARIS filter cartridge	■
High-performance pump, 15 bar	■
Thermoblock heating system	■
Integrated rinsing, cleaning and descaling programme	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■
Swiss made	■

Specific benefits

Latte macchiato at the touch of a button	■
Cappuccino at the touch of a button	■
Wireless ready	■
Powder recognition for additional ground coffee variety	■
Intelligent preheating	■
Integrated storage compartment	■
TÜV certificate for user-friendly user manual	■

Settings and programming options

Programmable amount of water	■
Amount of water can be adjusted for each preparation	■
Adjustable coffee strength	5 levels
Coffee strength can be adjusted for each preparation	■
Programmable brewing temperature	2 levels
Hot water temperature can be programmed	3 levels
TFT colour display	■
Rotary Switch	■
Programmable switch-off time	■
Active bean monitoring	■
Monitored drip tray	■
Integrated cappuccino rinsing and cleaning programme	■
Maintenance status display	■

Design and materials

Height-adjustable coffee spout	65 – 111 mm
Width-adjustable coffee spout	20 – 50 mm
Height-adjustable cappuccino spout	110 – 153 mm
White cup illumination	■
Amber cup illumination	■
Sound design	■

Accessories

Stainless steel vacuum milk container 0.6 l	optional
Cup warmer	optional
Cool Control	optional

In figures

Water tank capacity	2.1 l
Coffee grounds container (servings)	approx. 16
Bean container with aroma preservation cover	250 g
Cable length	approx. 1.1 m
Voltage	230 V AC
Power	1450 W
Energy consumption	approx. 10.6 Wh
Energy consumption with E.S.M.®	approx. 4.1 Wh
Stand-by power	≤ 0.1 W
Weight	10.9 kg
Dimensions (W × H × D)	28.5 × 34.2 × 43.3 cm
Checks	CE S
Colour	Brilliant Silver

Visual brilliance

TFT display for selfexplanatory, intuitive operation

Aroma⁺ grinder now twice as fast for fully preserved aroma

Foam of the finest

J90

Taking brilliance to a new level

The all-round design of the IMPRESSA J line has already won over the judges of renowned international design awards. The design has been reinterpreted in brilliant silver alone. The modern graphics of the TFT display and the purposefully positioned chrome elements underpin the design perfectly. The J90 is an automatic one-touch coffee machine, producing the entire range from ristretto to latte macchiato at the touch of a single button. The specialities are selected using the Rotary Switch. An Aroma⁺ grinder grinds the beans at twice the speed without impairing the aroma and the revolutionary fine foam technology places a light-as-air milk foam crown on every latte macchiato or cappuccino.

Visual brilliance

The front of the elegant automatic machine is finished with a high-quality double coat of metallic-look brilliant silver lacquer. The stylish white aluminium top, sides and back complement the beautiful all-round design.

TFT display for selfexplanatory, intuitive operation

The operating concept couldn't be clearer, simpler and more intuitive. Simply turn the Rotary Switch and a list of speciality coffees appears on the TFT display. Just press the button once, and you'll soon be enjoying a delicious cup of coffee. The modern graphics coupled with the machine design paint a harmonious picture.

Aroma⁺ grinder now twice as fast for fully preserved aroma

By perfecting the cutting angle inside the grinding cone, the JURA engineers have managed to increase efficiency significantly. As a result, the perfect aroma can now be achieved in all its natural fullness in half the grinding time. So now coffee lovers can enjoy pure and perfect coffee indulgence with less preparation time and less noise.

Foam of the finest

The height of the cappuccino spout for latte macchiato and cappuccino and the coffee spout can be adjusted on a continuous scale. This allows you to create the perfect specialities both in a small espresso cup and in a latte macchiato glass up to 153 mm tall whenever you want. The integrated fine foam technology from JURA ensures unique milk foam quality with a fine, feather-light consistency.
