- Jet Steam Cup Warmer

WMF Plug&Clean

WMF Removable Brewer

COFFEE MACHINES  
AUSTRALIA

Cleaning is simple and automated. The user simply inserts the cleaning tablet and presses start.

The WMF 900S utilises the same technology as the larger WMF Professional units, including the boiler and milk systems.

The WMF 900S is more environmentally friendly with reduced energy consumption, fewer chemicals and almost entirely recyclable.

The WMF one touch concept allows operation to be made as simple as possible and generally with the press of a single button.

The hopper is stylishly integrated into the rear of the unit and allows quick refill during peak operation periods.

The WMF All-In-One spout allows for two speciality coffees to be made at the same time.

The WMF 900S features the Connect & Clean automated milk hose cleaning system.

The WMF 900S can create 8 different international coffee specialities at the press of a button.

The WMF 900S features multiple easy to use adjustments including a manual insert which allows you to use other types of pre ground coffee eg. Decaf or single origin.

WMF Australia have an Australia wide sales & service network with trained service engineers.
